

With the tradition of European style and elegance always in the background of the decision making process, Ed Zazzali and Diamond Spring bring to life the almost non-existent tradition of "The Cabana Club" from the 1950's to the current day. Hosting pool membership for club members Memorial Day through Labor Day seven days a week Diamond Spring Beach Club carries on a tradition that has existed at this location for almost sixty years. Located in the middle of a residential neighborhood in Nutley, New Jersey Diamond Spring Beach and Cafe is considered by many to be a hidden gem.

The facility was purchased in 2003 and since then it has been nothing but a labor of love for the new ownership. The history of this type of facility is appreciated by many and remembered by those who either frequented this club or belonged to a similar facility that doesn't exist anymore. The warm memories of summer fun and family are always appreciated.

Since taking ownership of the facility in 2003, Ed Zazzali has turned to his roots and upbringing to make Diamond Spring succeed in today's world. Hard work and his belief in bringing his tradition of family and food to the members and customers of his establishment are the main goals of Diamond Spring. Aside from the Beach Club Ed Zazzali and Diamond Spring have developed a top notch food establishment that can compete with any around. The almost 3 acre facility has developed an Italian Restaurant and Bar that boasts "Old World Neighborhood and Traditional Style Italian Food". The dining and catering areas are open all year long and open to the public for all to enjoy. Membership is not required to enjoy any of their food or catering venues.
